TAO dining table

ART N°
01666

MATERIALS

- Lightened concrete is a mix of mineral granulates and organic fibres without resins. Unlike ordinary concrete, it doesn't contain gravel which makes it a lot lighter. The lightened concrete is coloured in the mass, with a subtle variation of shades, unique to every table. Each furniture piece is hand-finished by an Italian craftsman, giving it a unique patina and a smooth surface texture.

TAO dining table

TECHNICAL DETAILS

Net weight 204.6 kg

DIMENSIONS

Clearance under table (CT) 69.0 cm

Height (H) 74.0 cm

Diameter (DM) 160.0 cm

SHIPPING
