

ABOUT CANAX® WEAVE / CANATEX® STRAPS

Canax® is a unique combination of natural hemp and synthetic fibres. Unbreakable polyester fibres provide strength and stability. PVC makes Canax® stain repellent, UV stable and resistant to water, frost, heat, mildew and mould.

The hemp finally, gives the material a surprisingly matte look and a natural touch. As hemp is a natural product, differences in colour and structure may appear, giving the furniture its unique craft appearance.

GENERAL GUIDELINES

- Cleaning should be done preferably during cloudy weather or in the shade. Make sure your furniture is cooled down before you start.
- Beware of sensitive flooring and wear protective gloves.
- Do not use any abrasive sponges, steel brushes, wonder sponge or any abrasive/caustic cleaner.
- Do not use a high pressure cleaner nor a steamer.
- Make sure your furniture is clean and completely dry before you apply protective products.
- Storage during winter time or long absence: before storing, we recommend good cleaning and protection of your furniture. Store only in a dry, unheated and well-ventilated room and never use non-breathable plastic covers. Tribù offers custom-fit protective covers. Contact your dealer for more info.

RECOMMENDED PRODUCTS

1. Synthetics Super Cleaner
2. Synthetics Protector

CLEANING

- Always clean the frame of your furniture first before you clean the weave.
- Canax® requires hardly any maintenance and is easy to clean with clear water, a pH neutral soap and a soft hand brush. Always rinse well after cleaning.
- Green deposits and persistent stains can be removed with **Synthetics Super Cleaner (1)**.
- Mist the weave with some clean tap water, for example with a plant sprayer.
- Spray the Synthetics Super Cleaner in all directions onto the weave and let the cleaning agent soak for 1-2 minutes. Make sure the surface stays moist to keep the cleaner active.
- Gently brush the weave with a soft hand brush in circular movements and let the cleaner soak for another minute.
- Make sure you clean the weave on both sides.
- Finally rinse the furniture well with clean tap water and remove excess water with a clean microfiber cloth. Let the furniture dry in the open air.

PROTECTING

- For extra protection, we recommend using **Synthetics Protector (2)** once or twice a year. This product applies an invisible film and reduces the adhesion of dirt.
- Shake the product well and spread some onto a clean microfiber cloth.
- Gently rub the product onto the weave making circular movements.
- Let the weave dry in the open air.
